

**Vanguard Instruments Company, Inc.**

## **ATRT-01 S2 Product Line**

The ATRT-01 S2 is Vanguard's third-generation micro-processor-based, single-phase, automatic, transformer-turns-ratio tester. This portable test equipment is offered in three models: the ATRT-01 S2, ATRT-01B S2, and ATRT-01D S2. The ATRT-01 S2 is ac-line powered; the ATRT-01B S2 is ac-line or rechargeable-battery powered, and the ATRT-01D S2 is powered by six D-cells.

The ATRT-01 S2 product line has a long history of reliability. The first generation ATRT-01 product line was introduced in 1999, and the Series 2 (S2) line followed its success starting in 2006. With over 400 units sold world-wide, the ATRT-01 S2 line is a proven industry workhorse.
